Reasons for allowance

The following is an examiner's statement of reasons for allowance: the prior art fails to anticipate or render obvious the combination of a gear change control system as set forth in claims 1 and 14, and most significantly requires a clamp chamber oil pressure setting section for setting up a clamp chamber oil pressure by a following calculation; dividing the selected one of the primary thrust force and the secondary thrust force by an addition of the clamp chamber's applied pressure area of one of the primary clamp chamber and the secondary clamp chamber, and a cylinder chamber's applied pressure area of the cylinder chamber on a selected side.
